WORK EXPERIENCE

Accenture

Penetration Tester, member of Red Team Operations 07.2024 – Now

Security Delivery Analyst (7 months) 11.2023 – 07.2024
- I was responsible for quality and security assurance of delivery by independently auditing projects and engagements,
- Managing Client Data Protection process and supporting/hosting client audits and regulatory inspections,
- Provided help with the merger of Objectivity and Accenture on the Objectivity side, including the transfer of cloud environments and the internal Roll-On/Roll-Off process for employees of my former company.

Objectivity (2 years)

Security Engineer 04.2022 – 04.2024
- Designed the security architecture of cloud and hybrid solutions,
- Performed various security operational tasks, e.g., incident response, alert fine-tuning, configured security systems, gathered security indicators, helped with ISO 27001 certification,
- Created documentation and designed internal security audits, penetration tests, company-wide phishing simulations that raised the awareness of all employees,
- Carried out vulnerability scans in internal/external projects and supervised Vulnerability Management in the company,
- Worked with Microsoft Azure, Microsoft 365, Powershell, Jira, Git, Burp Suite, Tenable Nessus, and many more.

EDUCATION

Master of Science in AI and Machine Learning 03.2024 – Now

Wroclaw WSB Merito University

Bachelor of Engineering in Computer Science 10.2020 – 02.2024
Gdansk University of Technology, specialized in Computer Systems
- I have had a scholarship in most of my academic years. During the education process, I touched on many technologies and programming languages. Capable of programming in C, C++, assembly, python, and many other.

Information and Communication Technology Technician 09.2016 – 06.2020
CS Technical High School in Gdansk

Certifications & Achievements
- **06.2024 –** Offensive Security Certified Professional (OSCP),
- **06.2022 –** Duolingo English Proficiency Test, a score that translates into 113-116 TOEFL iBT points,
- **2022 –** CompTIA Security+, Microsoft AZ-900, SC-900, Qualys VMDR,
- **2021 –** eLearnSecurity eJPT certification, Top600 position worldwide on TryHackMe,
- **2019 –** Three local certificates covering CCNA R&S and one covering CCNA Security.

1

BOOKS

I am a co-author of three books written for students of CS-related courses. They were published in Polish and English.
- "Computer network management in Packet Tracer" – Two books describing basic and advanced knowledge of networking with real-life examples.
- "Cisco ASA firewall configuration in Packet Tracer" – Introduction to cybersecurity in networking.

PROJECTS

The biggest projects I have worked on:
- Engineering thesis "**Design and implementation of a didactic security testing environment for web applications**", where I was a Project Manager and a Lead Developer. I dealt with the documentation of the engineering project, theoretical sections, practical implementation of vulnerabilities and organization of work. The main technologies we've used include HTML, JS, PHP, MySQL, Docker, and other.
damianStrojek/Security-Testing-of-Web-Applications
- Project **"Application for Monitoring Performance and Energy Consumption in a Computing Cluster**" that was created using mainly C++. We've created an application that can synchronize system metrics downloaded from different nodes in a computing cluster. The entire project was organized by me - from communication with the client to creating and supervising the backlog and delivering the product. My main development tasks included: creating an universal function to download all system metrics, implementing Intel RAPL and NVIDIA NVML libraries into the code, and function for saving the metrics and progress.

SKILLS, INTERESTS

Skills: strong decision maker; innovative; good team management; wide comprehension of computer science and networking; good knowledge of cybersecurity tools – experienced CTF player and engineer.

Interests: powerlifting; classic physique; One Piece anime; new technologies; shooters and RPGs; e-sports; cars.
